Dr. Sam Mannan

A " Certificate of Completion " will be provided upon successful completion of the course

Course Content:

This course is concerned with all aspects of Industrial and Process Safety and Loss prevention. Application of engineering principles to hazard analysis including source and dispersion modeling, emergency relief systems, fire and explosion prevention and mitigation, hazard identification, risk assessment, process safety management etc. will be covered in this course.

Who can enroll?: ChE, ME, MME, IPE graduates of BUET and other universities

Timeline: 21 December, 2015- 7 January, 2016

Duration: 15 contact hours (Class schedule will be announced soon)

Enrolment fee:

- Students already enrolled in M. Sc./PhD programs in ChE department, BUET may be enrolled without any fee
- Fee for other participants: Tk 1000/person
